Part 2:

Information & Knowledge Management

Dissemination of research

1. Ensure that the conducted research has a social, political, or economical impact.

2. Enhance the visibility, comprehension, and implementation of research results and conclusions

Dissemination of research

3. Ensure the transparency and increased reproducibility of research.

4. Ensure that stakeholder/actors have the knowledge they need to make informed decisions

5. Contribute to the development of society and to the cultural growth of citizens.

Facilitating knowledge retention – AU-IBAR online platform

The screenshot displays the AU-IBAR online platform interface. At the top, there are logos for the African Union Inter-African Bureau for Animal Resources, FishGov 2 Project, European Union, and AUDA-NEPAD. The main title is "Regional Economic Communities (RECS) Implementation of Fisheries Governance Phase Two". Below the title are logos for various RECs: ECOWAS, SADC, IGAD, and others. The navigation bar includes "Welcome", "Home", "News", "Photos", "Videos", "Calendar", "Discussions", and "Meeting Documents". The "Welcome" button is highlighted. On the left, there are three buttons: "Send Email to Members", "Send This Page to a Friend", and "Add to My Lists". The main content area shows a group profile with the text: "Regular engagements in the form of Dialogue Meetings with all the RECs are organised as a mechanism to provide an update on progress made, discuss emerging issues and to enhance coordination and institutional collaboration in the expeditious development of the sector." Above the text are "Edit", "Source", and "Delete" buttons. To the right, there is a "Group Profile" box containing the text: "Regional Economic Communities (RECS) Implementation of Fisheries Governance Phase Two".

Facilitating knowledge retention – AU-IBAR online platform

Organisations engaged in animal resources are welcome to join the ecosystem. Explore the organisations currently utilizing this online ecosystem and find out how your organisation can engage and benefit from the functionality and connections.

Desire to Move towards Target Audience reporting and Partnerships

Researchers #1

Centres of Excellence in Fisheries and Aquaculture; How cover emerging issues of RECs

Practitioners/ Value Chain #2

Fishermen, Aquaculture Producers, Blue Economy sector

Targeted Stakeholders #3

Women, small scale fishermen, Private Sector, European Union

National, Regional & Global Institutions #3

African Union, National Governments; Regional Economic Communities; communication partnerships

Support Going Forward

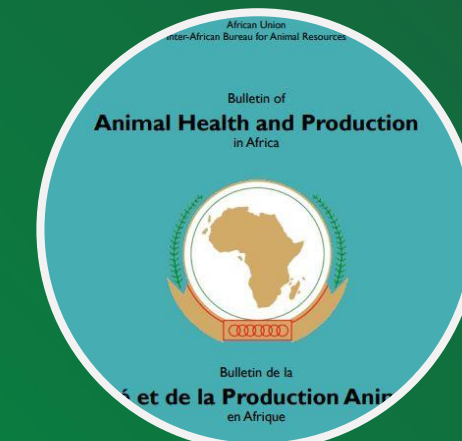

Sustainable media/
communication
Partnerships- e.g.
Knowledge Share Fair;
Communication with
REC Comms & Focal
Persons

Strengthening
capacities in
knowledge
sharing and
Communications
for targets –
NSAs;

Website
enhancement and
usability – linkages
& integration
between websites;
language
integration,
maintenance and
upgrade

Varied knowledge
products &
dissemination -
Bulletins; opinion
pieces at regional
issues; Open
events

Support Going Forward

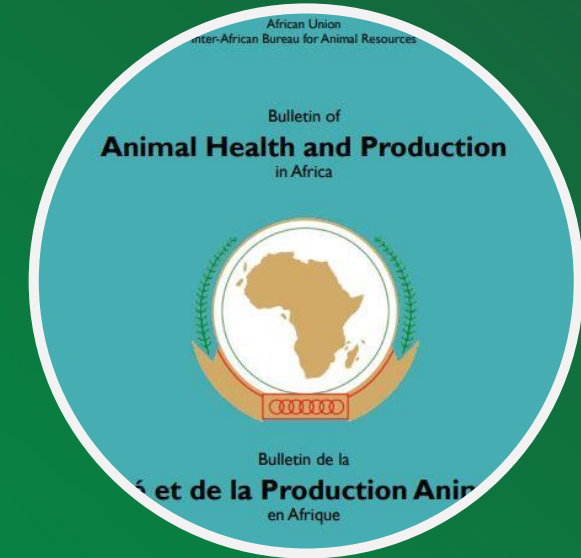

Strengthening capacities in use of tools; integrate existing tools e.g. IGAD/ AU-IBAR repository

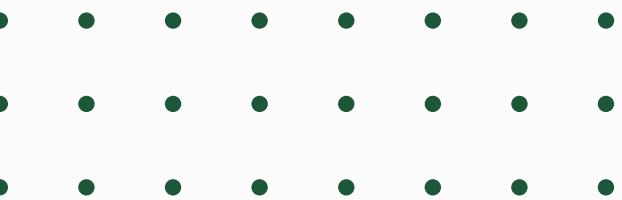

Enhanced targeted communication through translated products

Link old and new research - e.g. Catfish farming

Citations & Visibility of Knowledge Products - website; infographics
